EXPERIENCE

Project Engineer
Wipro

2022 - Present

- Designed and developed 100+ user interface components of an analytical website using React.js.
- Implemented several libraries like Chart JS,Framer Js and Material UI or ShadCN to enhance user Experience.
- Built more than 20 reusable components and front-end libraries for future use.
- Created 50+ customized hooks for api calls.
- Used firebase as an cloud messaging platform to notify client apps.
- Worked as a group of 5 to fix and sort out different bugs and unimportant rerenders throughout the website.
- Learned SSR framework like NextJS , to reduce api response time and increase the Seo as well as the efficiency of the project.

Automation-Tester(Intern)

Qdesq

2021 - 2022

- Learned to develop test plans, create and execute test cases, find and log bugs.
- Built 50+ test cases for several individual components and apis and was automated to run daily tests cases with the help of a auto selenium based testing software like test-project.

Projects

CryptoXplorers-([Link](#))

- **Tech Stack**-React,ChartJS,Material UI.
- Created a table chart of crypto-coins with their recent drop or bump in their price fetched from coingecko api.
- Used react-charts to visualize their price in line charts.

Bookstore-([Link](#))

- **Tech Stack**-MERN stack, tailwindCSS
- Simple store to add,edit and remove items(with images).

MyPortfolio-([Link](#))

- **Tech Stack**-NextJS,FramerJS, TailwindCSS
- Developed a dynamic React-based portfolio with smooth scrolling, incorporating technologies like Tailwind and Framer Motion.
